EXPERIENCE

API Hacks 2.0

July '21 – Oct '21

Organiser

Remote

- Created the Logo and Visual elements for the Hackathon
- Engaged with the Community and Worked up on multiple ways to Innovate and Ideate.
- Developed the Sponsor and Community Literature.
- Hosted Workshops with Speakers from various Domains.

PROJECTS

StoryBlok | StoryBlocs, NextJS, AnimeJS, Figma

October 2021

- Created a Cohesive Platform for Organizers and Companies to Reach out and Avail Sponsorships.
- Designed the Landing page and the Workflow of the Service.
- Developed a System to Reach out to multiple companies and keep track of available sponsorships in one place.

Feedback Prime | Syml.ai, Kotlin, Sawo Labs, Figma

October 2021

- Created a AI based system to Intelligently understand a customer support call, and analyse the painpoints during the conversation.
- Developed a straightforward Interface to easily upload the call recordings and get an Instant analysis of each Dialogue.
- Designed a minimalistic UI for a clutter-free experience.

Suite Converter | Python, Speech Recognition, gTTS

January 2021

- Created a CLI Program to Locally Inter-Convert Multiple Common File Types.
- Devised a solution to convert Files without Internet Connection.
- Implemented gTTS Python library to convert User's Voice into Printable text file.
